Currently a student at Rhodes university studying Computer Science and Information Systems in second year level and hence on track to graduate at the end of 2023. I have a passion for computers being around them my entire life which blossomed into my passion for programming. Although I am currently a student, I have undertaken programming projects in part time capacity for employers listed below.

Employment History

Emerald Consulting (Part-Time), Cape Town
July 2021 – March 2022

> Developer: integration of Smartsheet to Google calendar, including Google Script, Google Sheet to PDF converter and downloader, maintenance, and support.

Student IT Help Tech, Rhodes University (Makhanda)
January 2022 – Present

> Maintenance: making sure students' computers are behaving appropriately, dealing with viruses, and dealing with general support/software issues.

Solo-Projects

> Creating a discord bot that links with a Google Sheet and Calendar API along with creating educational wireframes for different types of applications, namely a coffee company.

Education

High School Diploma, Kingswood College, Makhanda
November 2020

Rhodes University, Makhanda
